

SAVE BLANCHARD

PART OF BLANCHARD MOUNTAIN'S PROTECTED CORE COULD BE LOGGED THIS SUMMER IF THE LEGISLATURE DOESN'T FUND A SOLUTION. ACT TODAY AND HELP SAVE THIS BELOVED AREA!

Dear Senator Kirk Pearson,

Blanchard Mountain is a hugely popular recreation area, where every year tens of thousands of visitors like myself contribute to a multi-billion dollar outdoor recreation industry and bring business to this unique area where the mountains meet the sea. We value this ecological jewel for outdoor inspiration and activity, as well as habitat for marbled murrelets and other rare wildlife species. That's why **I'm urging you to please ensure that the Blanchard Forest Strategy agreement is fully funded during the 2017 legislative session**, with the additional \$7.7 million in capital appropriations that is necessary to protect it from being logged. For these reasons please fully fund Blanchard Mountain's protection and save this cherished part of Washington state!

Sincerely, _____
