

## **Citizen Wildlife Monitoring Volunteer Form**

By signing this form I agree that I am volunteering my time to the citizen monitoring effort of Conservation Northwest. I understand that due to the outdoor nature of this volunteer project there is a level of risk associated with my volunteer duties. Should anything happen to me while I am in the field, I will not hold Conservation Northwest or any other project partner liable. I understand that it is solely my responsibility to understand my abilities and only accept volunteer assignments within my skill level and physical limitations.

To prepare for my field time with this project, I will ask for needed training and assistance from project staff and prepare myself for my trips to install, maintain, and uninstall the remote cameras of my team.

I have also read and understand the protocols associated with these volunteer duties.
