30 Years Wilder

*Conservation Northwest's
30th Anniversary
Auction & Dinner*

*Bell Harbor International Conference Center
Wednesday, April 17, 2019*

30 years wilder!

And we're just getting started

For over 15 years, our annual *Hope for a Wild Future* Auction and Dinner has brought together the region's top conservationists, philanthropists, and local business and community leaders to recognize Conservation Northwest's efforts to create a wilder Northwest. At our **2019 30th Anniversary Auction and Dinner**, we want to celebrate 30 years of successes with our most dedicated supporters and community partners, longstanding and new, as we look ahead and **choose a wild future.**

In 2018, our top supporters helped us raised more than \$400,000 at our event. In 2019, we hope to raise even more at our 16th annual event to fund our innovative conservation programs while celebrating our 30th anniversary with 300 of the Puget Sound's top philanthropists. These outdoor and recreation enthusiasts know that, by joining Conservation Northwest's mission, they are investing in the future of the lands and activities they love and depend on.

We are so grateful to the businesses that have sponsored our Auction and Dinner in the past, which has enabled Conservation Northwest to grow our programs in scope and richness. **Support from businesses like yours is the key to our event's success over these past 15 years and crucial to making our 30th Anniversary Auction and Dinner our most successful year yet.**

We are excited to work with you to craft a **custom sponsorship** opportunity to fit your needs and develop a strategy to advertise your business both at our event and through our website. Additionally, this a prime occasion to establish mutually beneficial connections with our guests, community partners and other sponsoring organizations.

Conservation Northwest is the largest Washington-based conservation organization dedicated to protecting, connecting and restoring wildlands and wildlife. For over 29 years we have worked across political boundaries to ensure that, even as our region and economy grow, the wildlands from the Washington coast to the British Columbian Rockies will be able to sustain a full suite of wildlife now and for generations to come. We are so grateful to the individuals and businesses that support us as we strive to keep the Northwest wild.
